

# Offset Printing

Direct**Connect**Group

## Your piece demands the absolute best in print quality and clarity.

DirectConnectGroup (DCG) offers a full range of printing capabilities that'll deliver your branded messages while preserving your brand's integrity. When it comes to high-quality commercial offset printing, DCG delivers. Everything from long-run full-color sheet-fed work to short-run one- and two-color projects. Need large volumes of one- and two-color perfecting work? Not a problem. And, with DCG printing it all, your look - your brand - will be preserved. Always

the right colors, format and design. Everything precisely on-brand.

## Commercial offset printing services

- One- to six-color offset printing
- Computer-to-plate technology
- Detailed proof-to-press matching

Print technology is rapidly changing. There's traditional offset, digital, even high-speed laser for producing personalized documents.

Do you create training materials, directories, flyers or any other time-sensitive materials? Let DCG's digital print-on demand (POD) solutions print the quantity you need, when you need it. Variable data printing makes it easy for your business to communicate directly with your audience creating a variety of pieces where the content changes ever so slightly. At DCG, we let your project

and needs drive the choice of printing method. And, we can be objective because we offer most of the printing options you'll ever need. Let DCG be your trusted print partner; just as we are for some of the most recognized companies in the world.
